REASONS FOR ALLOWANCE

4. The following is an examiner's statement of reasons for allowance: The Examiner finds Applicants' arguments on pages 11-14 of the "Amendment" filed 11 July 2005 concerning a method of communicating manipulated dietary information as amended by examiner's amendment persuasive as applied to independent claims 1 and 4. The Examiner finds that combinations of prior art do not render obvious nor anticipate the combination of recited elements in light of claims 1 and 4. In particular, no prior art or combinations of prior art teach "identifying specific dietary information meeting user criteria, wherein said identifying step comprises said personal database interacting with the menu/recipe database and optionally with the nutritional database or the medication database" and "manipulating said specific dietary information wherein said manipulated dietary information comprises a menu of planned meals".

5. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
